

SURREY HILLS

— CYCLEWORKS —

WORKSHOP PRICELIST

Tune-Up

- 1 hour of workshop time
- Does your bike need a check-over?
- Has your bike been unused for a while and you would like an expert to check it is safe?
- Would you like a service assessment of your bike?

PRICE: £50

Service

- 2 and a half hours of workshop time
- Do you use your bike regularly?
- Does your bike creak?
- Would you like us to get your bike running smoothly and quietly again?
- We believe that a 'service' for a bike incorporates the following: Drivetrain removed, front fork removed, wheels removed, all moving parts inspected, cleaned and lubricated correctly, worn and broken parts replaced as needed (parts are an additional cost).
- We believe that this is the level of work that is needed to 'service' a bike, a bike is not serviced unless all moving parts are inspected and adjusted.

PRICE: £125

Premium Service

- A whole day of workshop time
- Is your bike your pride and joy?
- Would you like a mechanic to spend the whole day stripping your bike down and re-building it?
- We take the stress out of wondering if your consumable parts on your bike need to be replaced, they are included in the cost.
- Included in this service cost is the price of the following parts where appropriate: Brake pads, All brake and/gear cables, handlebar tape/grips, tubeless tyre sealant, Suspension fork/shock lubrication oil, brake fluid, all greases and lubricants.
- We use Shimano polymer coated cables.
- We use genuine parts, as fitted at the factory for your brake pads etc.
- We include a quality handlebar tape/grips of your choice and colour.
- Included in this cost is a brake bleed, suspension fork lower leg service and rear shock air can service if applicable
- Drivetrain parts are an additional cost.
